Proceedings of His Honour the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 1, dated 2nd January 1906.

READ—

The Annual Municipal Administration Reports and Returns for the year 1904-05.

REMARKS.—

PART I.—CONSTITUTION OF COMMITTEES.

(*a*) *New Municipalities established and old Municipalities abolished.*—The town of Palampur was constituted a Notified Area.

(*b*) *Revision of boundaries.*—The boundaries of the Alipur and Sialkot Municipalities were extended for fiscal reasons : those of the Sangla Notified Area on sanitary grounds : and those of Jandiala in order to obtain greater control over traffic.

(*c*) *Changes in the system of appointing members.*—The only change of importance was the disfranchisement of the Municipality of Ballabgarh in the Delhi District on account of the high party feeling prevailing between two rival factions in the town.

(*d*) *Election and appointment of members.*—Exclusive of the Delhi figures, which cannot be dealt with in this year's report, 228 elective vacancies occurred. To fill these 93 contested elections were held. The percentage of voters who exercised their rights was 65·5 (exclusive of Jullundur, as to which information is not available owing to disregard of the standing instructions regarding the preparation of the annual report). Keen interest in the elections is reported to have been displayed in Ludhiana, Amritsar, Jullundur and Gujrat, and on the whole there appears to have been less apathy over Municipal elections than there was over those of District Boards. The regrettable scandal which is reported from Lahore indicates that the position of Municipal Commissioner is keenly sought after, but the circumstances of the case referred to would seem to show that this keenness is in no degree prompted by motives of public spirit. The returns from the various Divisions appear to show that the elective system is best suited to the Central Punjab, while in the north and west and in parts of the Delhi Division it is not appreciated and actually militates against Municipal interests. His Honour observes that the protest of the Muhammadan community in Ambala has yet to be disposed of, and trusts that the matter will be decided without further delay.

(*e*) *Disproportion between the number of elected and appointed members.*—There is nothing of importance under this head.

(*f*) *Meetings and attendance at meetings.*—It is observed that in the Delhi and Lahore Divisions a number of Committees failed to hold the prescribed number of meetings on account of plague, the same reason being given in the Multan Division. In the smaller Committees a monthly meeting is in many cases sufficient to dispose of the business on hand, and it is satisfactory to note that in many cases this minimum was exceeded. Mr. Meredith's remark that in all large towns weekly meetings are required is generally true, and the regularity of the meetings at Simla, Ambala and Delhi is very creditable. Attendance of members on the whole throughout the Province was very fair, but His Honour observes with regret that the Municipal Commissioners of Multan and Muzaffargarh are very irregular in the discharge of their public duties. The attendance in Murree was also very poor, but probably appears worse than it was, owing to the figures of the cold weather meetings being included. The Lieutenant-Governor's attention has been directed to the case of Feroz-pore. The continued indifference to their duties on the part of the members clearly indicates that some alteration in the constitution of the Committee is demanded. His Honour would be extremely reluctant to stigmatize the Committee by using the powers which section 182 of the Act confers, but this may ultimately be found inevitable. In the meantime the Commissioner should consider whether the number of elective seats could not profitably be reduced, in order to make room for men who would do the work of the Committee with greater public spirit and zeal.

(*g*) *General working of Committees.*—The newly instituted Local Fund Audit will no doubt bring a powerful search light to bear upon many of the inner workings of local self-government, and until the results of the new scrutiny are more fully known, it is not possible to speak with any great confidence on the working of the Committees. But speaking generally the working of the Committees is well reported on throughout the Province In particular, Sir Charles Rivaz observes with pleasure the report of the smoothness and energy which characterize the proceedings of the Committee of Amritsar.

The improvement in the working of the Lahore Committee, which was adversely criticized last year, is gratifying, and reflects credit on the President and members.

The Lieutenant-Governor views with satisfaction the praise bestowed upon Dr. R. S. Shankara, Lala Ram Gopal and the gentlemen brought to notice by the Deputy Commissioners of Gujrat and Jhelum, and trusts that the efforts of the President at Hissar will result in placing the affairs of the Committee upon a better footing.

The party feeling reported to exist in the Committees of Multan, Rohtak, Gohana, Machhiwara and Pakpattan is a matter for regret, and steps should, where necessary, be taken to allay the discord by proposals for reconstitution. The state of the Bhera Municipality as reported by the Deputy Commissioner is most discreditable, and a special report should be submitted with a view to the abolition of the elective seats.

Sub-Committees are generally said to be useful, and apparently find more scope for their functions than do those of District Boards. At the same time to be utilized to the best advantage the Sub-Committees must hold regular meetings, and the Commissioner of Rawalpindi's remarks about the Murree procedure have the full approval of the Lieutenant-Governor.

(*h*) *Rules framed by Government or by Committees.*—Bye-laws regarding vaccine operations were framed by the Municipalities of Rohtak, Beri, Rewari, Ambala, Rupar, Jalalpur, Murree, and Mianwali. Other sanitary bye-laws were passed by the Committees of Delhi, Khanna, Ferozepore, Gujranwala Jhelum and Murree. The compulsory registration of children's names has been adopted in most of the Municipalities of the Delhi Division, while rules for registration of births and deaths were made in Kalka, Gujrat, Jalalpur, Kunjah, Dinga and Jhelum. Several Committees also passed bye laws for the regulation of traffic.

PART II.

(*a*) *Imposition of new and withdrawal of old taxes.*—During the year under report octroi was imposed in the newly created Municipality of Mianwali. There was no other fresh indirect taxation. House taxes were imposed in Ambala (in substitution for the water-tax) and Gujrat, and in the Notified Areas of Gojra and Palampur.

Orders have now issued for the early submission of revised octroi schedules throughout the Province.

(*b*) *Total income from taxation.*—The total income derived from rates and taxes in Municipalities and Notified Areas was Rs. 36,74,000, showing an increase of Rs. 2,30,000 on the figures of the previous year. Of this amount octroi accounted for Rs. 32,99,000, which was Rs. 2,55,000 in excess of last year. The increase in octroi receipts is attributed to closer supervision and to the excellent harvests of the year. When the Local

Fund Audit comes fully into play, still further increases may confidently be expected. There was a slight decrease in the proceeds of direct taxation throughout the Province. The decreases under this head in Delhi are explained as being more apparent than real. Simla showed a remarkable expansion in the recoveries from the servants' tax, but lost considerably under the tax on vehicles owing to the opening of the railway. The Lahore and Amritsar figures exceeded those of the previous year by Rs. 36,000 and Rs. 39,000 respectively. A great rise is also observable in Sialkot, Multan, Kasur and Gujranwala, while in Rawalpindi there was an increase of very nearly Rs. 53,000. Decreases are remarkable only in Jhang and Dera Ghazi Khan, where they are explained as being due to the prevalence of plague.

(c) Incidence of taxation.—The average incidence of all taxation per head of population rose during the year under report from Re. 1-8-0 to Re. 1-9-7; that of octroi from Re 1-5-6 to Re 1-7-1, and of octroi on grain only from Re. 0-12-10 to Re 0-13-8 The apparent excess over the Government maximum of Re. 1 per head, reported in so many Municipalities, is obviously due in part to the fact that no allowance has been made for the increase in population since the census. Taxation appears to be heavy in Dera Ghazi Khan, Lahore, Amritsar, Kasur, Gujranwala and Rawalpindi. On the other hand, it is reported to be low in Murree.

(d) Working of direct taxes.—The opposition, of which the Commissioner of Delhi complains, to the levy of the house tax in that city was, it must be admitted, partially justified by irregularities in the method of assessment. This has now been remedied, and it is to be hoped that the friction will pass away. At the same time there is no doubt that the house tax is not a popular form of impost—a fact which is exemplified by what is said about Gujrat.

(e) Working of the octroi tax.—The reports on this head are as usual generally optimistic, but the revelations at Rawalpindi do not evoke confidence. The Commissioner's remarks about Murree are almost certainly true, and the remissness in collections there may very well account for the low figure of the incidence of taxation. The Deputy Commissioner should give special attention to the matter.

The cost of collection of octroi was low in the large Municipalities of the Province and varied little from last year. The introduction of the Municipal Account Code since the close of the year under report will no doubt necessitate a large revision of the collecting establishments, and it will be interesting to watch how far the proceeds of the tax under the improved system of collection will go to meet the increased establishment charges.

(f) The incidence of the nett octroi collections per head of population.—The value of the examination of the incidence of nett octroi lies in the light it brings to bear on the taxation of through trade and (by comparison with the incidence of gross octroi) on the working of the refund system The latter point is dealt with below, and the former question loses much of its interest in view of the decision of Government during the year under report to introduce a system of refunds without proof of any previous payment of octroi. The high incidence at Ballabgarh (where no refunds are granted) is very marked, and it will be interesting to see whether, with the opening of the new railway, the incidence rate will so fall as to make it certain that the excess is due to the taxation of through trade. No over-taxation is apparent in the Jullundur Division. Incidence is high in Multan and Dera Ghazi Khan, and the result of the new rules in these Municipalities will be watched with interest.

The figures relating to the refunds of octroi again indicate in the most striking way the necessity which existed prior to the introduction of the new Account Code of a thorough overhauling of the methods employed by Municipalities in their treatment of through trade. In Delhi, even after the inclusion of the recoveries made in April 1905, the refunds amounted to only 4 per cent. of the

gross receipts from taxation. Panipat Municipality with an income of Rs. 25,068 from octroi refunded only Rs. 3, and Jagadhri where the receipts were Rs. 17,595 granted Rs. 86 only.

The remarks made on this subject in the previous year's review appear to have produced a marked improvement in this respect at Hoshiarpur where the efforts of the Deputy Commissioner have raised the percentage to almost 14 per cent.: and it is very satisfactory to note that all pending claims have been satisfied. His Honour observes that the question of refunds has been unsatisfactorily dealt with in Ludhiana and Ferozepore, and hopes that the Commissioner will see that the policy of Government is more carefully carried out in these Municipalities in future. The state of things disclosed at Sialkot where the Committee was Rs. 30,000 in arrears at the end of the year is little short of a scandal, and the local officers should submit without delay a scheme for enabling the Committee to meet its liabilities.

The system of bonded warehouses appears to gain little in popularity, and except in the Amritsar and Jhelum Districts the people of the Province show little inclination to avail themselves of this means of protecting their trade. It is, however, observed that there appears to be a demand for a bonded warehouse at Lahore.

What has been said above on the subject of refunds of octroi naturally anticipates the remark that the standards of taxable maxima have been generally exceeded There can be not the slightest doubt that in many cases the Municipalities of the Province have been living upon through trade. There are, however, other factors in producing the apparent excess taxation reported upon. In Murree, for example, through which very little trade passes, it is probable that evasions of payment have been considerably rife, and the figures of refined sugar bear out this conclusion. Again, when the population has increased, but the standard tables have not been revised, it is obvious that the prescribed maxima may be constantly exceeded.

The submission of revised octroi schedules for all the Municipalities in the Province will, His Honour trusts, be expedited.

PART III.—ACCOUNTS.

Audit.—The accounts for the year were audited by the Examiner of Local Fund Accounts under the system of peripatetic audit.

Balances.—The balances of the several Municipalities and Notified Areas at the beginning of the year aggregated Rs. 19,48,000 and at the close of the year Rs. 20,92,000, *viz.*, Rs. 16,78,000 in cash and Rs. 4,14,000 in investments. The balances of a few minor municipalities and notified areas fell below the prescribed minimum, chiefly owing to plague.

Extraordinary and Debt.—The receipts and expenditure under this head amounted to Rs. 4,05,000 and Rs. 2,61,000 respectively against Rs. 6,92,000 and Rs. 2,44,000 in the preceding year. The decrease under receipts occurs mainly under " Loans " taken up during the year, and the increase on the expenditure side is due chiefly to larger investments made in the year.

The balance of loans outstanding on 31st March 1905 aggregated Rs. 51,52,000 against Rs. 49,23,000 on 31st March 1904. The increase of Rs. 2,29,000 represents the difference between the advances (Rs. 3,92,000) taken up during the year by certain municipalities against the sanctioned loans and the instalments (Rs. 1,63,000) paid in repayment of loans advanced in previous years. The financial condition of each indebted municipality was satisfactory, the closing balance on 31st March 1905 in every case having been above the minimum prescribed by Government.

Revenue and Expenditure.—The total income and expenditure exclusive of Debt Head transactions amounted to Rs. 51,63,000 and Rs. 52,39,000 against Rs. 49,33,000 and Rs. 52,55,000 respectively in the previous year. The following paragraphs account for the variations under the main heads:—

Income.

Municipal Rates and Taxes.—The income from taxation amounted to Rs. 36,74,000 against Rs. 34,44,000 in the preceding year. The causes of increase are alluded to in Part II of this review.

Realizations under Special Acts.—The total realizations under this head amounted to Rs. 41,000 against Rs. 38,000 in the previous year. The increase is due to larger income from cattle-pounds.

Revenue derived from Municipal property and powers apart from taxation.—The total revenue derived from this source aggregated Rs. 7,06,000, showing a decrease of Rs. 41,000 compared with the previous year, which is due chiefly to the loss of school fees from certain schools which were provincialized, and partly to larger income from sales of lands in the preceding year.

Grants and Contributions (for general and special purposes).—The income under this head amounted to Rs. 2,74,000 against Rs. 3,07,000 in the previous year. The decrease is due mainly to the re-provincialization of certain localized schools having led to a reduction in the grant made by Government for the maintenance of those institutions.

Miscellaneous.—The total receipts under this head amounted to Rs. 4,67,000 against Rs. 3,98,000 in the preceding year, showing an increase of Rs. 69,000. The increase has occurred chiefly under the head "Refunds of amounts drawn but not expended," which is due to the fact that the Public Works Department refunded Rs. 56,000, during the year under report, to the Amritsar Municipality as the unexpended balance of the sanctioned amount for the city drainage schemes, &c., and partly to better income from sale of water, especially in Lahore, where there was an increase in house connections.

Expenditure.

General Administration and Collection Charges.—The charges under this head amounted to Rs. 8,04,000 against Rs. 7,08,000 in the previous year. The increase of Rs. 96,000 is spread over the following heads:—(1) office establishment, &c. (Rs. 39,000), due chiefly to the payment of audit fees to Government for the entire year against a part of year in 1903-04; (2) collection of taxes (Rs. 17,000), due partly to the construction of new octroi posts and partly to the entertainment of additional establishments by some municipalities; (3) refunds (Rs. 37,000), owing to larger refunds of octroi; and (4) pensions and gratuities (Rs. 3,000).

Public safety.—The expenditure incurred on this account aggregated Rs. 7,31,000 against Rs. 7,14,000 in the preceding year, showing an increase of Rs. 17,000, due chiefly to larger expenditure under the head "Lighting" spread over several municipalities.

Public Health and Convenience.—The expenditure charged to this head amounted to Rs. 26,75,000 against Rs. 27,90,000 in the preceding year. The decrease of Rs. 1,15,000, is due mainly to a large outlay in the previous year on water works and the Victoria Jubilee Hospital at Amritsar.

Public Instruction.—The charge under this head amounted to Rs. 6,21,000 against Rs. 6,15,000 in the previous year, showing an increase of Rs. 6,000 under school buildings. The total number of boys on the rolls of secondary schools managed by Municipal Boards on 31st March last was 14,192, or 7,400 less than in the previous year. The number in the secondary and primary stages of instruction has fallen from 7,507 to 3,842 and 14,085 to 10,350 respectively. This decrease is due to the Board schools at the head-quarters of districts having recently been taken over by the Government.

Contributions.—The expenditure amounted to Rs. 89,000 against Rs. 1,34,000 in the preceding year. The variation is due to the stricter application of the rule that contributions should be classified under the service heads represented by the objects for which they are made.

Miscellaneous.—The expenditure charged under this head aggregated Rs. 3,20,000 against Rs. 2,92,000 in the previous year, showing an increase of Rs. 28,000, which is spread over several municipalities under various sub-heads. The most noticeable increase occurred in Amritsar, and is due chiefly to larger payments of interest on loans and to the expenses incurred on the occasion of the opening ceremonies of the water works and of the Victoria Jubilee Hall.

PART IV.

The general health of the municipal towns of the Province was good. Cholera was almost completely absent, and the hilll municipalities were practically exempt from any epidemic disease. Bubonic plague, however, devastated the Delhi Division, and was prevalent throughout the towns of the Lahore and Amritsar Divisions, though in the town of Amritsar it never reached the stage of a real epidemic. Severe outbreaks occurred in the Jhelum and Shahpur Districts, and Dera Ghazi Khan and other municipal towns in the Multan Division were severely attacked. The efforts to combat the disease made by the Deputy Commissioner of Lahore unfortunately appear to have met with but lukewarm support, and in Dera Ghazi Khan and Ballabgarh the members of the Committee seem to have played a discreditable part in running away from the outbreak.

Large fires occurred in Ambala and Amritsar, and the Murree Convent School was burnt down. This event occurring so soon after the total destruction by fire of the Club of Northern India raises a doubt whether the arrangements of the Murree Municipality for the prevention and extinction of fires are adequate; the Commissioner should pay special attention to the question.

The Delhi-Agra Chord Railway passing through the Delhi and Gurgaon Districts was opened during the year, and the Ludhiana-Ferozepore Branch of the Southern Punjab Railway is approaching completion.

Sanitary and conservancy works on a large scale have been either worked out or commenced at Delhi, Ludhiana, Amritsar, Lahore and Gojra. The Ambala and Simla water-supply has been improved, and in several towns works of public utility have been opened.

ORDER.—Ordered that copies of the foregoing remarks be forwarded to all Commissioners of Divisions and Deputy Commissioners of districts in the Punjab, and the Secretary to Government, Punjab, Public Works Department, Buildings and Roads Branch, and be submitted to the Government of India in the Home Department.

Also that the remarks and a translation of them be published in the *Punjab Government Gazette*, English and Urdu versions, respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of Municipal Committees.

By order of His Honour the Lieutenant-Governor,

A. B. KETTLEWELL,

Secretary to Government, Punjab.

Punjab Government Press, Lahore—3-1-06—314—K. C. M.

Abstract of Form No. 1 of the Municipal Fund Returns for the year 1904-05.

REPORT

ON THE

WORKING OF MUNICIPALITIES

IN THE

PUNJAB

DURING THE YEAR

1905-1906.

Lahore:
PRINTED AT THE PUNJAB GOVERNMENT PRESS.
1907.

Proceedings of His Honour the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 834, dated 24th December 1906.

READ—

The Annual Municipal Administration Reports and Returns for the year 1905-06.

INTRODUCTORY NOTE.—

1. The year under review has been marked by the introduction of a new policy in regard to the grant of refunds upon goods exported from octroi limits. Hitherto the municipalities of the Punjab have been divided into two classes, A and B. In the latter, which comprised mainly unimportant towns situated off the main lines of communication, it had not been the practice to grant refunds of octroi upon exported goods, the lower rates of taxation imposed in municipalities of this class being held to compensate traders for the refusal of rebates. In towns belonging to class A refunds were given, but only upon the production of satisfactory proof that the particular goods to be exported were actually those upon which the duty had originally been levied, and in practice the refund procedure was so cumbrous as to cause exporters in many cases to waive their claims for refunds.

2. After full consideration of the matter the Lieutenant-Governor decided that such a state of affairs, injurious as it was to through trade, must be put an end to, and accordingly the system of granting refunds on exports without proof of previous payment of duty has been introduced in all municipalities without distinction of class. This step will no doubt involve temporarily considerable diminution of income in many cases, but as the revision of octroi schedules has been taken up concurrently with the introduction of the policy of 'free' refunds, it is not anticipated that it will lead to permanent financial embarrassment in any municipality. It is moreover felt that if in any case a town cannot exist without unduly taxing through trade, it should substitute some other form of taxation, or forfeit its municipal status. By next year it will be possible to deal more fully with the results of the system, which so far however appears to be working satisfactorily.

3. It should also be noted that during the year the local audit department, which will carry out a peripatetic audit of the accounts of all local bodies, began its operations. An effort has at the same time been made to codify and systematize the accounts system of municipalities. The Muncipal Account Code, devised by Mr. Tomkins, the Examiner of Local Fund Accounts, on the model of that in use in the United Provinces, has been adopted by all municipalities and is now in force. It is anticipated that the introduction of the Code will ensure the simplification and reduction of forms and entries, the decentralization of accounts, and a more efficient system of collecting municipal dues.

PART I.—CONSTITUTION OF COMMITTEES.

4. (*a*) *New municipalities established and old municipalities abolished*.—The towns of Chiniot Road and Toba Tek Singh were constituted notified areas.

(*b*) *Revision of boundaries*.—The boundaries of the notified area of Gojra were extended during the year. The octroi limits of Sialkot and Dera Ghazi Khan were revised so as to include new extensions of the towns.

(*c*) *Changes in the system of appointing members*.—A system of electing members by wards in Ambala was sanctioned, a step which, it is hoped, has put an end to any grounds for complaint by the Muhammadan community of being under-represented.

(*d*) *Election and appointment of members.*—For 312 elective vacancies there were only 107 contested elections; the percentage of voters who polled varied from 45 in Lahore to 69 in Rawalpindi. In the municipalities of Fazilka, Chunian, Gujranwala, and the minor municipalities of the Amritsar and Gujrat districts the elections appear to have aroused a fair amount of interest; elsewhere municipal life seems to be apathetic. Trafficking in votes is reported from Gujrat, but popular feeling is said to be now strongly against malpractices of this nature, and it is to be hoped therefore that they will not be repeated.

(*e*) The proportion of elected to nominated members has been altered in Ferozepore, where the municipal commissioners have for several years formed the subject of unfavourable strictures. At Jhajjar the disproportion between elected and nominated members continues, but it is not clear whether the opportunity for correcting it has yet occurred.

(*f*) As regards the numbers of meetings and the attendance of members, the committees of Delhi, Ambala and Simla have set a good example, and good results are also reported from the Rawalpindi division. The figures for the Multan division show a marked improvement upon the previous year in the number of meetings held. The Lieutenant-Governor thinks that where, as in Khushab, Muzaffargarh and three of the Gurgaon municipalities, enough business was not found to necessitate one meeting a month, the question of the abolition of the committee, or the conversion of the municipality into a notified area, should be seriously considered. In some districts no doubt the lack of business is due to the interference of the central local fund office, and where this is so, it is impossible to expect the members to take any interest in what is self-government only in name; but if it could be proved in any case that full effect had been given to the decentralisation intended by Government when the local audit department was constituted, and that there was still no business for the municipality to transact regularly once a month, the fact would be *primâ facie* a strong ground for questioning its right to municipal status.

(*g*) The Lieutenant-Governor regrets that district officers have not touched more fully on the general working of the municipalities in their districts. Hissar and Machhiwara, which were unfavourably noticed last year, are reported to have improved, but no remark is made about the other committees which came in for criticism at the same time, except in the case of Pakpattan, which has been reconstituted since the close of the year. Apathy is said to prevail in the minor municipalities of Sialkot, and in Jhelum and Mianwali. Local factions have prejudiced work in Dinanagar, Gardhiwala and Alawalpur.

As the Commissioner of Rawalpindi observes, it might have been expected that local officers would have commented more freely upon the working of municipalities as disclosed by the peripatetic audit, and have taken the opportunity of expressing their opinions upon the audit itself and the system of accounts introduced in the new Code. This has been left to the Commissioners to do, and the Lieutenant-Governor is glad to see that the Commissioners of Jullundur, Lahore and Multan commend the new system of audit and accounts. Mr. Hallifax writes that the Code "has effected radical improvement for the better in municipal administration; it has done much to reduce peculation . . . and has awakened local interest in municipal matters." Generally favourable results are reported from the Lahore division. Colonel Parsons shares in the appreciation of the audit system, but deprecates the introduction into audit notes of hypercriticism. In this Sir Charles Rivaz entirely concurs. In particular, care should be taken that the audit should be confined to its proper sphere, and that no interference should be made in matters of administration rather than of account save by way of suggestion and advice.

The work of sub-committees calls for no remark. As regards the executive control exercised by Deputy Commissioners over the proceedings of committees, the Lieutenant-Governor observes that formal interference has

been rarely called for and never in any matter of great importance. The time has come, Sir Charles Rivaz thinks, when greater powers of sanctioning expenditure might well be given to committees, and the central controlling establishments reduced. Orders on this question will shortly issue.

(*h*) *Rules framed by Government or by committees.*—The adoption throughout the province of the Municipal Account Code has been dealt with separately. Bye-laws requiring the registration of the names of children were passed by a large number of municipalities in the Delhi division. The Simla bye-laws were amended in several important respects. Building bye-laws were passed or revised in some 10 municipalities, and new hackney carriage rules were framed in Multan.

PART II.—TAXATION.

5. (*a*) The only new taxes imposed during the year were those on vehicles in Hissar and Fazilka. Taxation of potable liquors was discontinued by the Simla municipality, and in consequence of the earthquake the levy of octroi was temporarily suspended in Kangra.

(*b*) The total gross proceeds of taxation fell from Rs. 36,74,000 to Rs. 35,40,000. In the Delhi division, where the proceeds rose by Rs. 40,000, the large increase in octroi receipts at Delhi neutralised the falling off in direct taxation in that town (Rs. 16,000), and the loss at Simla due to refunds of octroi (Rs. 20,000). In the other municipalities of the division increases are ascribed to better supervision and to good harvests. In the Jullundur division the increase in octroi collections alone amounted to Rs. 47,000 gross, and (in spite of a rise of refunds from Rs. 15,000 to Rs. 26,000 and of the loss at Kangra) to a net figure of Rs. 33,000. The scarcity of fodder entailing the more general slaughter of animals for food is the main reason given for the rise at Jullundur. Elsewhere the growth of income is attributed generally to the improvement of supervision under the new system of accounts. A similar reason is given for the increase in the proceeds of taxation in the Lahore municipality, where the new system of accounts has been taken up with enthusiasm. From Amritsar a rise of Rs. 10,000 is reported, due mainly to the importation of cheap sugar. In the minor municipalities of the Lahore division the only striking figures are the decreases of Rs. 12,000, Rs. 25,000 and Rs. 20,000 respectively in the income of Kasur, Gujranwala and Sialkot. These decreases, however, are more apparent than real, as they are the result of a comparison between gross and net receipts, and in Sialkot at any rate the decrease is due to the vigorous attempt now made towards wiping off the liabilities of the municipality in respect of arrears of refunds. The Commissioner of Rawalpindi, in the course of some interesting remarks regarding the new system, observes that it would be premature to draw any conclusion as to its financial results upon the income of committees. He points out that it has certainly enhanced the cost of collection, and that claims for refunds have already begun to expand, but that its actual effect upon gross receipts is still problematical. These remarks are true so far as they go, but they do not appear to reflect the general opinion of the province, and it seems fairly clear that the new system has considerably checked the laxity in collections which has hitherto marked the municipal administration of octroi. But its introduction has undoubtedly been accompanied by a heavy increase in expenditure due to improved barriers and larger establishments for supervision; and there is no doubt that in the near future it will become necessary to consider carefully whether the smaller municipalities, in which, of course, the cost of collection of octroi is proportionately to the income far greater than in large ones, will not be compelled by financial exigencies to have recourse to some less expensive form of taxation. And in such cases the desirability of maintaining the municipal status is perhaps questionable.

(*c*) The incidence of provincial taxation (Re. 1-11-3 per head) is largely due to the high figures for hill stations. In Simla and Kasumpti the incidence is abnormally high in spite of the large refunds given, and it is evident that any considerable increase is out of the question in those stations at any rate as long as the burden of taxation falls almost entirely on a minority of the population.

(*d*) The working of the octroi tax in Rawalpindi engaged the attention of the Commissioner, who has recently addressed Government on the matter. The new system of collection, which was not fully understood locally, did not at first commend itself to the commercial community, and it was not until the Commissioner personally intervened that friction was removed. Elsewhere there is no indication that either the octroi or any other particular form of taxation is working otherwise than smoothly, or that its levy is resented by the population. The question of abolishing octroi in Lahore was carefully considered by the committee.and was abandoned.

(*e*) The figures, however, of the cost of collection in many cases raise doubts as to the adequacy of the arrangements in force. Some change for example seems to be called for in Amritsar, where the municipality pays twice as heavily for collection as does the neighbouring city of Lahore, and the attention of the Deputy Commissioner should be directed to the point. Allusion has already been made above to the question whether octroi is not too expensive a form of taxation for small towns.

The question of " free " refunds introduced in the new Account Code has been constantly before Government during the year, but except in Rawalpindi and Ludhiana the new system is not reported to have jeopardized even temporarily the financial stability of committees. The efforts of the Sialkot committee to face their responsibility are particularly satisfactory; and it is hoped that in next year's report the Commissioner of Rawalpindi will be able to report progress in this direction from the districts of his division where the system of free refunds is at present "a dead letter." The Lieutenant-Governor, however, views with considerable concern the figures of refunds in Simla, where they amount to as much as 24 per cent. of the gross receipts from octroi. The position of Simla in regard to the Native States involves a large amount of through trade in goods which would not ordinarily in these circumstances be taxed, but the requirements of the municipality are such as to preclude the possibility of reducing the schedule to any appreciable extent.

(*f*) The experience of Ferozepore, Sialkot and Rawalpindi seems to indicate that a bonded warehouse if worked upon proper principles is appreciated by the mercantile community, and where the existing warehouses are unpopular, the cause is probably to be sought in some defect in their situation or management. The annual audit report contains some valuable suggestions on the subject which deserve careful consideration by all district officers.

(*g*) The revision of standard tables of consumption of dutiable articles, which are at present, as several officers remark, perfectly obsolete, has had to be postponed under the press of more urgent work. Now that trade is protected by free refunds, their necessity is very questionable, and the more convenient way to test the extent to which municipalities are taxing through trade would probably be to consider in the case of each committee what articles in the schedule involve the largest amount of refunds. Considerable progress has been made in the revision of schedules in the Dehli and Multan divisions.

PART III.—ACCOUNTS.

6. *Audit.*—The peripatetic audit of local fund accounts commenced on the 22nd July 1904, but as the audit staff is required to review the accounts of 434 local bodies in the Punjab and the North-West Frontier Province and started with the accounts of 1903-04, it was not possible to audit the accounts of all municipalities for the year 1905-06 in that year. Serious irregularities were brought to notice in the accounts of the Hissar, Hansi, Delhi, Kalka, Gardhiwala Rahon, Amritsar, Tarn Taran, Dalhousie, Dinanagar, Sujanpur, Pathankot, Batala, Sialkot, Wazirabad and Rawalpindi municipalities, and suitable action was taken in each case. Although the audit did not reveal anything materially grave in the accounts of the towns of Bhera, Bhiwani, Kartarpur, Kalanaur and Srigovindpur, the state of affairs must be held to be far from satisfactory. It must on the other hand be noted that the result of the review of the accounts in Simla, Lahore, Multan, Jullundur and Gurdaspur was satisfactory.

7. The reports would seem to show that the irregularities are due mainly to a lack of supervision. The staff, often underpaid, with money continually passing through their hands, would appear to have been allowed a free hand in regard to the method of keeping the accounts. The introduction of the Municipal Code and the adoption of standard forms of account should do much to fix responsibility, while the peripatetic audit should check any infringement of principle or departure from established procedure. It is essential, however, that the working should be subjected to systematic supervision and control by the members of the municipal committee, and His Honour would be glad if Deputy Commissioners would take steps to impress this on the members of all committees in their charge.

The accounts of notified areas have been separately tabulated under the orders of the Government of India contained in their resolution No. 86—92, dated 11th June 1906, and are not dealt with in detail in this review, a circumstance which accounts, generally, for the variations between the figures of the two years.

8. *Balances.*—The balances of the several municipalities and notified areas at the close of the year under review amounted to Rs. 15,51,000 in cash and Rs. 3,71,000 in investments. The balances of a few municipalities and notified areas fell below the prescribed minimum.

9. *Extraordinary and debts.*—The receipts and expenditure under this head amounted to Rs. 4,56,000 and Rs. 2,97,000 respectively. The items which call for notice under this head are confined to loans. The balance of loans outstanding on 31st March 1906 amounted to Rs. 52,83,000 against Rs. 51,52,000. The increase of Rs. 1,31,000 represents the difference between the advances (Rs. 3,64,000) taken up during the year by certain municipal committees against sanctioned loans and the instalment (Rs. 2,33,000) paid in repayment of loans advanced in previous years. The loans outstanding at the end of the year against each indebted municipality are specified in the remarks column of appendix III. The financial position of each indebted municipality during the year under review was sound, the closing balance in every case having been above the prescribed minimum.

10. *Revenue and expenditure.*—The total income and expenditure exclusive of debt head transactions amounted to Rs. 49,48,000 and Rs. 51,98,000 against Rs. 51,63,000 and Rs. 52,39,000 respectively in the previous year. The

variations under the main heads are explained in the following paragraphs. The income of the following municipalities ranged from Rs. 6,000 to Rs. 1,000 :—

	Rs.		Rs.
Sohna	5,600	Khudian	4,300
Ladwa	4,500	Sharakpur	4,100
Buriya	4,400	Majitha	4,500
Dharmsala	4,600	Kalanaur	5,400
Kangra	3,800	Srigovindpur	5,800
Hariana	4,200	Jamke	5,400
Gardhiwala	2,900	Kila Sobha Singh ...	3,900
Una	3,000	Narowal	5,800
Anandpur	2,900	Eminabad	3,700
Mukerian	5,200	Kila Didar Singh ...	3,700
Dasuya	4,400	Kunjah	3,700
Miani	2,500	Dinga	5,800
Alawalpur	2,700	Shahpur	2,200
Nawashahr	5,200	Karor	5,400
Machhiwara	5,500	Talamba	1,000
Dharmkot	4,700	Khairpur	2,900
Makhu	1,800	Mithankot	5,000
Khemkaran	5,100		

It is doubtful whether there is any advantage in maintaining as municipalities towns with so small an income as those shown in the above list, and His Honour will be prepared to consider recommendations for converting all or any of them into notified areas.

Income.

11. *Municipal rates and taxes.*—The causes of variation under this head of income are explained in part II of this review.

12. *Realizations under Special Acts.*—The total realizations amounted to Rs. 39,000 against Rs. 41,000 in the preceding year. The difference is nominal, and calls for no remarks.

13. *Revenue derived from municipal property and powers apart from taxation.*—The total revenue under this head aggregated Rs. 8,36,000 against Rs. 7,06,000, showing an increase of Rs. 1,30,000 compared with the previous year. The increased income was derived mainly from the (1) rent of lands, houses, serais, dâk bungalows, &c. (Rs. 76,000) and (2) sale-proceeds of lands and produce of land (Rs. 1,62,000), partly counterbalanced by decreases under (3) conservancy receipts (Rs. 16,000) and (4) fees and revenue from educational institutions (Rs. 90,000).

The increase under (1) occurred mainly in Delhi, being the result of more careful supervision in the collection of rent from permanent squatters. There is reason to believe that stricter supervision in this direction by other municipalities would result in similar enhancement. Municipal committees should maintain, in the register prescribed for the purpose in rule 188 of the Municipal Account Code, a complete record of the properties belonging to them as well as of those transferred to them for management under the local self-government scheme, and should supervise carefully the collection of the rent leviable on them. It would probably be found useful if tenders were invited or the rent fixed by auction.

The increase under (2) is due to larger sales of municipal properties in Simla, Fazilka, Amritsar, Murree, Jhelum and Lyallpur.

The decrease under (3) occurred mainly in Delhi where it was due to a considerable decrease in the sale of manure and in Sialkot where it is due to the previous year's receipts having been inflated by the recovery in advance of the sale-proceeds of manure of the year under report. The sale of sweepings and manure is a matter which might usefully engage the attention of committees, as it would appear to be a profitable source of income.

The decrease under (4) is due to the recent provincialization of one school in each district.

14. *Grants and contributions (for general and special purposes).*—The income under this head amounted to Rs. 2,27,000 against Rs. 2,74,000 in the previous year. The decrease of Rs. 47,000 is due chiefly to a reduction of Rs. 71,000 in the Government grant for educational purposes owing to the re-transfer of one school at the head-quarters of each district to Government control partly counterbalanced by an increase of Rs. 26,000 in contribution from other sources for medical relief at Amritsar. The latter amount includes a sum of Rs. 16,000 devoted by Lala Ram Narain and Shaikh Muhammad Jamil towards the construction of the Princess of Wales' dispensary and a large sum on account of public contributions towards the Victoria Memorial eye ward fund.

15. *Miscellaneous.*—The total receipts under this head amounted to Rs. 3,04,000 against Rs. 4,67,000 The difference is due mainly to a recasting of the headings in the new form (No. 79 of the Municipal Account Code) by which certain items previously shown under this head in the old form No. 11 are now classed under the proper heads.

Expenditure.

16. *General administration and collection charges.*—The expenditure charged to this head amounted to Rs. 6,79,000 as compared with Rs. 5,66,000 (exclusive of refunds of octroi) in the previous year. The reasons generally assigned for the increase of Rs. 1,13,000 are—(1) general increases in the pay and strength of the establishments of office and collection of octroi and taxes, (2) purchase of weighing machines, and (3) payment for new forms, &c., introduced in connection with the revised system of accounts.

17. *Public safety.*—The expenditure incurred on this account amounted to Rs. 7,30,000, which corresponds with the outlay in the preceding year. Out of 138 municipalities there are 27 towns where no arrangement would appear to exist for lighting streets. This is a measure to which the committees might usefully turn their attention.

18. *Public health and convenience.*—The expenditure incurred on this account came to Rs. 28,80,000 against Rs. 26,75,000 in the previous year. The increase of Rs. 2,05,000 is mainly due to large outlay on drainage works in Multan and on buildings and roads in Lahore, Delhi and a few other towns. The result of the local audit shows that the expenditure on public works calls for greater control than it has hitherto received, both on account of the magnitude of the amounts involved and the special facilities it would appear to afford for fraud. Every committee should start the register prescribed in the Municipal Account Code, paragraph 245, in which all works which it is decided to undertake should be recorded. An estimate should then be prepared and scrutinized by the members of the Municipal Public Works Sub-Committee, particularly in regard to the rates charged, and when the work has started, the materials and test measurements should be inspected and the work generally supervised till final completion.

19. *Public instruction.*—The total expenditure on this account from municipal funds during the year under review was Rs. 4,34,000 against Rs. 6,20,000. This decrease of Rs 1,86,000 is due chiefly to the re-provincialization of one board (localized) school at the head-quarters of

each district. The total number of scholars on the rolls of secondary schools under municipal management on the 31st March 1906 was 14,481 or 289 more than in the previous year. The number in the secondary stage of instruction fell from 3,842 to 3,756, while in the primary stage it rose from 10,350 to 10,725.

20. *Contributions.*—The expenditure amounted to Rs. 13,000 against Rs. 89,000 in the preceding year. The variation is nominal, and is due to the stricter enforcement of the account rule that contributions shall be classified under the service heads represented by the objects for which they are made.

21. *Miscellaneous.*—The expenditure charged under this head amounted to Rs. 4,63,000 against Rs. 3,20,000 in the previous year, showing an increase of Rs. 1,43,000 which is due largely to the expenditure incurred by the Delhi, Lahore and Amritsar municipalities on the reception of their Royal Highnesses the Prince and Princess of Wales and His Excellency the Viceroy.

PART IV.—GENERAL.

22. *Health.*—An epidemic of cholera broke out in Lahore and Shujabad, and in Lahore, Amritsar and Ludhiana small-pox was prevalent during a portion of the year. The ravages of plague were less serious than in the previous year; all divisions were visited by it, but in the Rawalpindi and Multan divisions the towns escaped severe attacks.

23. *Fires.*—Serious fires occurred in Simla and Kalabagh, and in Lahore the premises of the Bank of Bengal were burnt down. The police and municipal staff were called in to extinguish fires in Jullundur and Ludhiana.

24. *Water-supply and drainage.*—The Ambala water-works have been enlarged and a large scheme for water-supply has been undertaken in Ludhiana. Drainage schemes are in progress or in contemplation at Delhi, Ambala, Jhelum, Rawalpindi, Rohtak, Hansi and Pind Dadan Khan. A committee sat for considering improvements in the civil station of Lahore. Their report was considered by Government during the year, and action has already been taken towards the adoption of many of their suggestions.

25. The Local Audit Department did a very useful year's work under the direction of Mr. H. G. Tomkins who has submitted a valuable note on the work of audit during the year.

ORDER.—Ordered that copies of the foregoing remarks be forwarded to all Commissioners of divisions and Deputy Commissioners of districts in the Punjab and the Secretary to Government, Punjab, Public Works Department, Buildings and Roads Branch, and be submitted to the Government of India in the Home Department.

Also that the remarks and a translation of them be published in the *Punjab Government Gazette*, English and Urdu versions, respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of municipal committees.

By order of His Honour the Lieutenant-Governor,

W. M. HAILEY,

Offg. Secretary to Government, Punjab.

Punjab Government Press, Lahore—22-12-06—4681—320—K. C. M.

Abstract of Form No. I of the Municipal Fund Returns for the year 1905-06.

REPORT

ON THE

WORKING OF MUNICIPALITIES

IN THE

PUNJAB

DURING THE YEAR

1906-1907.

LIBRARY
OF THE
BOMBAY
BRANCH
OF THE
ROYAL ASIATIC SOCIETY.

Lahore:
PRINTED AT THE PUNJAB GOVERNMENT PRESS,
1907.

Proceedings of His Honour the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 813, dated 16th December 1907.

READ—

The Annual Municipal Administration Reports and Returns for the year 1906-07.

PART I.

AS regards alterations in the area and constitution of municipal committees the year 1906-07 has been uneventful. At the suggestion of Government, the question of the abolition of a number of petty municipalities, whose income and population appeared *primâ facie* too insignificant to deserve the municipal status, was considered, with the result that in a number of cases both the local officers of Government and the inhabitants of the towns themselves declared in favour of abolition. The case is at present under consideration by the Lieutenant-Governor, and orders may be shortly expected. The overhauling of the octroi arrangements has in many towns necessitated the revision of boundaries,—a change which in most cases is well understood by the people and excites little interest. In order to admit of a better representation of the various classes of the community reduction in the number of elective seats was found necessary in Ferozepore.

2. Little need be said about the election and appointment of members. Statement I shows that 50 per cent. of the municipal commissioners are elected, in spite of the total absence of the elective system in large tracts of the western divisions. Out of a total of 1,485 members, officials number 298 and Europeans 107 respectively; there is therefore an official proportion of barely 20 per cent. of the whole. In only 52 out of 231 cases were vacant seats contested. In Rawalpindi, Delhi and Ferozepore alone are the elections reported to arouse any interest, and in these places the interest appears to have attached to men rather than to measures.

3. Except in Shahpur, and in a few small municipalities of the Lahore division, the number of meetings held was satisfactory; this is especially the case with the larger towns of the Delhi division, and in the Multan division generally. Members throughout the province attended very fairly well.

4. The district reports contain little information of interest regarding the general working of the committees. Petty intrigue seems to have characterised the proceedings of a number of municipalities in the Delhi division, and factiousness and obstruction were rife in Rawalpindi and Bhera. On the other hand, it is satisfactory to note the activity in Ludhiana and Sialkot, and in particular to observe that the introduction of the new system of accounts is said (in an interesting note by the officiating Commissioner of Rawalpindi) to have infused a fresh vigour into municipal life. More use could still be made of sub-committees.

5. In hardly any case was it necessary for the executive officers of Government to overrule a committee's proceedings.

6. The only new rules worthy of comment passed during the year refer to the extension of the provident fund system and to the registration of children's names.

PART II.

7. The revision of the octroi schedules for the province has progressed satisfactorily, almost fifty revised schedules having been notified up to the present date. A house-tax was substituted for octroi in the notified area of Ram Das, and the abolition of the latter impost has been approved of for Murree. In connection with the suggested abolition of petty municipalities Sir Charles Rivaz intimated that he disapproved of the maintenance in notified areas of so expensive a form of tax as octroi undoubtedly is. The problem of finding a substitute is one of considerable complexity, but signs are not wanting that the old prejudice against direct taxation is, at any rate in the more advanced trading centres of the province, beginning to break down.

8. The total receipts from taxation in municipalities rose by Rs. 1,31,000, octroi being responsible for an increase of Rs. 58,000. Taxation income in notified areas increased by Rs. 9,300. A comparison of the net octroi income with that of the previous year affords considerable interest in view of the prediction that the new accounts system, in spite of the free grant of refunds, would increase the revenue of municipalities. That it had this result in the United Provinces is, it is believed, an established fact. The figures given below for the main municipalities of the province exhibit a comparison between the year under report and the previous year in respect of both gross and net octroi receipts.

Receipts from octroi.

	+ more, — less than last year's figures.	
	Gross.	*Net.*
	Rs.	Rs.
Delhi	+908	−7,197
Simla	−19,712	+4,387
Lahore	+44,916	+9,066
Amritsar	+30,544	−23,487
Sialkot	+21,580	+16,094
Rawalpindi	+224	−41,797
Multan	+6,902	+13,765

The diversity of these figures makes it difficult to form any safe opinion regarding the financial effects of the new system on one year's returns. But the very large amount of refunds granted in Amritsar and Rawalpindi would *primâ facie* seem to indicate that the schedules worked upon need careful scrutiny and possibly revision in the interests of through trade.

9. Excluding the hill municipalities the incidence of taxation per head exceeds Rs. 2 in the following cases :—

	Rs.	A.	P.
Delhi	2	1	6
Ballabgarh	2	2	9
Ferozepore	2	2	11
Lahore	2	12	0
Amritsar	2	3	1
Kasur	2	9	2
Gujranwala	2	3	2
Sangla	4	3	2
Rawalpindi	3	5	10
Shujabad	2	1	11
Mianwali	2	11	0
Dera Ghazi Khan	2	5	8

The high incidence in the case of Sangla is (as explained by the Commissioner) due to exceptional and temporary reasons. The figure for Dera Ghazi Khan shews a considerable decrease.

10. A general improvement is reported regarding the methods of collection of octroi, and the results of better supervision are reflected in the total receipts: but the cost of collection appears still very high, and has shewn a marked increase since the introduction of the Account Code. The percentage is particularly noticeable in the case of such small towns as Anandpur (32·65), Dharmkot (30·65), Alawalpur (32·15), Makhu (75·2), Khudian (105) and Narowal (39). The obvious unsuitability of this form of taxation in such cases needs no further comment, for, as the Commissioner of Jullundur remarks about Alawalpur and Rahon, the octroi seems to be collected almost entirely for the benefit of the establishment maintained for that purpose. Whatever effect the new system has or has not had upon the financial position of municipalities, it certainly has proved conclusively, as the Commissioner of Lahore observes, that it was introduced none too soon in the interests of through trade.

PART III.—ACCOUNTS.

11. *Accounts.*—The accounts of the municipalities have been compiled in the forms as revised by the Government of India in their Home Department resolution No. 14—26, dated 29th January 1907. Those of the notified areas have, as in the previous year, been tabulated separately and are not dealt with in this review.

12. *Income and expenditure.*—The total income and expenditure exclusive of debt head transactions amounted to Rs. 54,08,000 and Rs. 53,13,000 against Rs. 49,48,000 and Rs. 51,98,000, respectively, in the previous year. The variations under the main heads are explained in the following paragraphs.

Income.

13. *Municipal rates and taxes.*—The causes of variation under this head are alluded to in part II of this review.

14. *Revenue derived from municipal property and powers apart from taxation.*—The total revenue derived from this source aggregated Rs. 8,57,000 against Rs. 8,36,000 in the previous year. The increase of Rs. 21,000 is spread over several sub-heads, *viz.*, (1) "Rents of lands, houses, &c.," due to improved receipts from the lease of municipal lands and shops. The income from this source should be better if the records of municipal properties were maintained on a more satisfactory basis. The register of immoveable property (form 34 provided in the Municipal Account Code) has been found incomplete in every town that has been visited by the Examiner, and in some cases the register has been found to be entirely blank; (2) "Conservancy Receipts" due to greater attention having been paid to the sale of sweepings in some municipalities during the year; (3) fees and revenue from "Educational and Medical institutions" and "Markets and Slaughter-houses," due to better receipts under these heads; and (4) "Fines," chiefly in the Lahore municipality, due to the more rigorous prosecution of offenders against the Act.

15. *Grants and Contributions (for general and special purposes).*—The income under this head amounted to Rs. 4,36,000 against Rs. 2,27,000 in the previous year. The increase of Rs. 2,09,000 is due chiefly to a grant of Rs. 1,00,000 from Government from the 20 lakhs assigned by the Government of India for the extension of Simla and to the sum of Rs. 82,000 received from the public by way of subscription and donations in aid of the water-supply scheme at Ludhiana.

16. *Miscellaneous.*—The total receipts under this head amounted to Rs. 4,03,000 against Rs. 3,04,000 in the preceding year, showing an increase of Rs. 99,000, which is due partly to the sale of unserviceable articles in Delhi and Simla and partly to better income from the sale of water in the Delhi, Ambala, Amritsar and Lahore municipalities.

Expenditure.

17. *General Administration and Collection Charges.*—The expenditure charged to this head amounted to Rs. 8,43,000 against Rs. 6,79,000 int he previous year. The increase of Rs. 1,64,000 has occurred mainly under heads (1) "Re-

funds other than octroi," (2) "Collection of octroi" and (3) "Office establishment," which is due chiefly to the entertainment of larger establishments for the collection of octroi and to the cost entailed in carrying out improvements following the introduction of the Municipal Account Code, *e.g.*, in the establishment and equipment of new octroi posts.

18. *Public Safety.*—The expenditure incurred on this account aggregated Rs. 7,34,000 against Rs. 7,30,000 in the preceding year, showing an increase of Rs. 4,000 which is ascribed chiefly to the extension of street lighting.

19. *Public Health and Convenience.*—The expenditure charged to this head aggregated Rs 28,25,000 against Rs. 28,79,000 in the previous year. The decrease of Rs. 54,000, which is nominal, occurred mainly under the heads (1) "Drainage" (Rs. 21,000), (2) "Hospitals and Dispensaries" (Rs. 20,000) and (3) "Public Works" (Rs. 1,40,000), and is due to a larger outlay in the previous year on drainage works and hospitals in Multan and Amritsar and on buildings and roads in Lahore, Delhi and a few other places, partly counterbalanced by an increase of Rs. 1,27,000 under the head "Water-supply" in connection with the water-works in Ludhiana.

20. *Public Instruction.*—The charge under this head amounted to Rs. 4,43,000 against Rs. 4,34,000 in the preceding year, showing an increase of Rs. 9,000 which is spread over several towns and is due mainly to improvements in the pay of the teaching staff and in the equipment of schools. The total number of scholars on the rolls of secondary schools under municipal management on 31st March 1907 was 15,300 or 819 more than in the previous year. The increase is shared by both the secondary and primary stages of instruction. In the former stage the number rose from 3,756 to 3,903 and in the latter from 10,725 to 11,397.

21. *Contributions.*—The expenditure amounted to Rs. 20,000 against Rs. 13,000 in the preceding year. The increase is due chiefly to arrear payment by the Amritsar municipality to Government on account of compensation for localized provincial properties.

22. *Extraordinary and Debt.*—The receipts and charges under this head amounted to Rs. 4,63,000 and Rs. 4,01,000 against Rs. 4,56,000 and Rs. 2,97,000 in the preceding year, showing an increase of Rs. 7,000 and Rs. 1,04,000 respectively. The increase on the expenditure side is due chiefly to larger investments made in the year. The balances of loans outstanding on 31st March 1907 aggregated Rs. 52,28,000 against Rs. 52,83,000 on 31st March 1906. The decrease of Rs. 55,000 represents the difference between the advances taken up during the year by certain municipalities against sanctioned loans and the instalments paid in repayment of loans advanced in previous years. The financial condition of each indebted municipality was satisfactory, the closing balance on 31st March 1907 in every case having been above the minimum prescribed by Government.

23. *Balances.*—The balance of the several municipalities at the close of the year amounted to Rs. 16,53,000 in cash and Rs. 2,87,000 in investments. The balances of a few municipalities fell below the prescribed minimum of 10 per cent. of the receipts for the year, owing partly to the prevalence of plague and partly to larger refunds of octroi collections.

24. *Audit.*—The report of the Examiner of Local Funds Accounts that a general improvement is noticeable in the financial administration of municipalities during the year under review, is satisfactory. This improvement is the result of the greater interest taken by municipal commissioners, and also to the fact that the improvements in pay have attracted a better class of employés and to the more efficient check and control over business methods. The introduction of Provident Funds should tend still further to improve the status of this class of employé.

The accounts of 79 municipalities and notified areas have been audited during the year, involving a check of the accounts for the three years—1903 to 1906—in each case. Serious irregularities were revealed in the accounts of the Rohtak, Ludhiana, Narowal, Kila Sobha Singh, Lyallpur and Akalgarh municipalities and Daud, Begowal, and Khangah Dogran notified areas.

At Gujranwala and Multan instances of fraud were brought to light. The result of the audit in the towns of Gohana, Ballabgarh, Anandpur, Khanpur, Jandiala and Amritsar shewed the state of the accounts to be far from good. It is satisfactory, however, to note that the accounts at Jhajjar, Faridabad, Hariana, Montgomery, Pasrur and Jamke were found to be good.

PART IV.

25. The remarks in this part present few features worthy of comment. Health in municipalities was generally good, except for plague which was prevalent throughout the province and exhibited particular virulence in the district of Judundur. The Ludhiana water-works scheme, estimated to cost over 4 lakhs of rupees, has made considerable progress, and the Amritsar-Patti railway has been opened. A conservancy tramway at Lahore is nearing completion, and two mono-rail projects are under contemplation in Ambala district.

During the year under report the financial relations between local bodies and the Government departments have been specially examined, and the question of giving local bodies fuller control over their own funds is, it is hoped, nearing a solution. The system of the centralisation in the local funds office of control over local bodies and the appointment of official presidents has been under review, and it has been considered whether it is not desirable to give municipalities larger powers of expenditure.

ORDER.—Ordered that copies of the foregoing remarks be forwarded to all Commissioners of divisions and Deputy Commissioners of districts in the Punjab and the Secretary to Government, Punjab, Public Works Department, Buildings and Roads Branch, and be submitted to the Government of India in the Home Department.

Also that the remarks and a translation of them be published in the *Punjab Government Gazette*, English and Urdu versions, respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of municipal committees.

By order of His Honour the Lieutenant-Governor,

W. M. HAILEY,

Secretary to Government, Punjab.

Punjab Government Press, Lahore—17-12-07—4762—307.

Abstract of Form No. I of the Municipal Fund Returns for the year 1906-07.

PARTICULARS.

Number of Municipalities under Act XX of 1891 ...	138	
Population within Municipal limits	2,089,811	
Number of towns of which the Municipal Committees are appointed by election only	*Nil*	
Number of towns of which the Municipal Committee are appointed partly by election and partly by nomination ...	103	
Number of towns of which the Municipal Committees are appointed by nomination only	34	
Number of towns in which the Deputy Commissioner administers the Municipal Funds	1	
Aggregate number of members of Municipal Committee—		
Ex-officio	244	1,485
Nominated	517	
Elected	724	
Of the above—		
Officials	298	
Non-officials	1,187	
Europeans	107	
Natives	1,378

REPORT

ON THE

WORKING OF MUNICIPALITIES

IN THE

PUNJAB

DURING THE YEAR

1907-1908.

Lahore:
PRINTED AT THE PUNJAB GOVERNMENT PRESS,
1908.

Proceedings of His Honour the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 799, dated 17th December 1908.

READ—

The Annual Municipal Administration Reports and Returns for the year 1907-08.

PART I.—CONSTITUTION AND AREAS.

When the last review was written, the question of the abolition of numerous petty municipalties was under consideration. During the year a large number were marked down for conversion into notified areas, and the necessary changes have been given effect to since the close of the year. Cheapness and simplicity of administration are what are wanted in notified areas, and the Lieutenant-Governor would record a warning against making too many sections of the Municipal Act applicable to them and against the raising of a larger income than is necessary for the simple wants of the towns. Neglect of these precautions render nugatory the abolition of the municipal status, for octroi could be abolished equally well even if a full-powered municipality were maintained. Three townships also have been constituted notified areas. One of these is the market at Dabwali in the Hissar district. The simplest constitution for the new grain markets that are being built in the colonies and along new railway lines is that of a notified area, and the precedent of the Dabwali Mandi is being followed in different parts of the province.

With regard to the constitution of municipal committees, the only important change is the abolition of the system of election in the Simla municipality, where it has not been successful. The reconstituted committee consists of 7 members with the Deputy Commissioner as President, one of the Civil Surgeons and the Executive Engineer as *ex-officio* members, and with one representative each of the Government of India, the house-owners, the trades and the Indian population.

2. The system of each religious community electing its own representatives has been extended to Ambala and Rewari so as to equalize the number of Hindu and Muhammadan members of the committee. This system, where it has been tried in the Punjab, has proved popular and successful, as it removes a frequent cause of friction and secures the representation of minorities. No change of any importance is recorded with regard to the boundaries of municipalities, but the policy of excluding agricultural land from octroi limits is being steadily pursued.

3. Two hundred and thirty-four vacancies occurred among elected members in the past year. Only 35 seats were contested, 169 were uncontested, and 30 were either filled by nomination or were still vacant at the close of the year. In the great majority of the contested elections, the poll was very meagre. These figures show that the municipal franchise is not highly appreciated in the Punjab as a whole. Only in the municipalities of the Ambala district and in Rawalpindi did the elections arouse interest. The main reasons alleged by local officers for this apathy are the small amount of independence enjoyed by municipal committees, the fact that men of position are generally unwilling to seek election for fear of defeat at the poll, and the existence of corruption at elections. The remarks of the Deputy Commissioner of Gujrat, Diwan Narendra Nath, are worth quoting :—

"Election is by no means popular in this district, in view of the objectionable practice of purchasing votes that has come into vogue, voters giving their votes in favour of the highest bidders amongst the contesting candidates. One hears of as much as Rs. 1,000 and more being spent by a candidate in purchasing votes to secure a seat. In addition to the above it is said that likely candidates, who withdraw, do so only on being paid a handsome sum by their rival candidates."

It is to be hoped that the measures of decentralization that have been adopted in the last year or two, and the further steps that will probably soon be taken, will result in creating a more real interest in local self-government and in attracting those influential men who at present hold themselves aloof from municipal politics.

4. The working of the committees is generally reported to be satisfactory, but from every division complaints are made that faction has paralysed the work of some. The most conspicuous instances are those of Bhera, where abuse and uproar disgrace the meetings, and of Multan of which it is stated that no public spirit is displayed, that questions are generally decided on religious and personal or social grounds, and that membership is prized because of the patronage it carries. The Lieutenant-Governor regrets that such remarks should have to be recorded of one of the most important municipalities of the province, and trusts that an improvement will be effected in the current year. In spite of the generally favourable reports made by Commissioners, the notes on the audit of municipal accounts frequently show that members take no practical part in the supervision of the establishments or of the collection of taxes, with the result that considerable laxity prevails and peculation is not uncommon. The Murree municipality furnishes a flagrant instance. Sometimes the means taken to secure greater efficiency are still more to be deprecated, as for example the appointment of a paid European Secretary in a small town like Bhiwani, where the whole staff should undoubtedly be indigenous. Sub-committees have done useful work, and their employment appears to be increasing. His Honour agrees with the opinion expressed by the Commissioner of Jullundur that the "utilization of sub-committees imbued with a due sense of practical responsibility must become a more prominent feature of municipal administration if the latter is to discharge its functions in an adequate manner."

5. The only instance of any importance in which the proceedings of a committee were overruled in the past year occurred in Ludhiana, where at a meeting held during the absence of the President, the District Judge, who was not a member of the committee, presided. The proceedings of the meeting were annulled by Government on account of this irregularity.

6. Many municipalities have now established provident funds for their employés, and the Lieutenant-Governor hopes that all local bodies will see their way to adopt a similar measure. The model rules on the subject framed by Government have been found suitable by all committees which had not previously started funds of their own, except that the contribution of half-an-anna by the committee for every anna contributed by the servant has in many cases been considered to be too little, as it yields after 30 years' service the equivalent of less than a year's pay. It is perhaps a sign of the times that the provisions of section 203 (1) and (2) of the Punjab Municipal Act have had to be extended to certain menials in Jullundur and Hoshiarpur, while in Lahore a strike of sweepers was only averted by prompt application to the courts under sections 118 and 203 of the Act.

PART II.—TAXATION.

7. Octroi remains the principal form of municipal taxation, accounting for 89 per cent. of the total income from rates and taxes. It brought in Rs. 3,32,000 more than in the previous year, the increase being due partly to the revision of schedules and partly to the more efficient system of collection consequent on the adoption of the Municipal Account Code and the decentralization of audit as well as to the rise of values. All the more important towns show a considerable increase of both gross and net octroi receipts, but the figures call for no special remark. They do not confirm the suspicion expressed in the last review that through trade is being taxed in Rawalpindi. The case of Amritsar, however, is not so clear, and will be separately investigated. In Rewari also, which is an important distributing centre, the quantities taxed are far in excess

of what the townsfolk and the inhabitants of the surrounding villages can consume. In Kasur, on the other hand, the refunds amounted to nearly 40 per cent. of the collections. The schedule of this municipality is now under revision, and the returns of the past year will be considered in this connection. No refunds appear to have been given in several minor municipalities—Dharmkot, Makhu, Buriya, Khushab and Pindigheb. The Municipal Account Code has been adopted by these towns, and His Honour desires that the Commissioner will see that an effort is made in each case to enforce its provisions on the subject. The cost of collection has been unduly high in the small towns of the Sialkot district and in Dasuya, Alawalpur, Miani and Dharmkot. Most of these municipalities will be reduced to notified areas, and in the remaining cases the district officers should consider whether the cost of collection cannot be reduced or some other form of taxation substituted for octroi.

8. A campaign against this tax has been initiated by the Punjab Trades Association. Government has long recognised to the full the many and strong objections that exist against it, but a substitute that will suit the conditions of the province has still to be devised. The advantages and disadvantages of various forms of taxation have been fully considered by the Lahore municipality in the past year, and it is clear that the objections to direct taxes—such as a house-tax—are as strong as ever. A proposal has been made to reduce octroi in the capital by imposing a quit tax or surcharge on railway tickets, and the question is now under the consideration of Government. The Lieutenant-Governor will welcome any feasible method of getting rid of octroi, but he considers that its wholesale abolition in the Punjab under present conditions is out of the question. The tax has been abolished in Murree and Kangra in the past year, and has not been newly imposed anywhere.

9. Steady progress has been made with the revision of octroi schedules. The new lists are shorter and simpler than the old, as a rule, only the main staples of consumption are now entered in the schedules, and care is taken to avoid taxing articles of through trade and the raw materials of local industries. Municipalities generally have accepted the suggestion of Government that gunny bags should be exempted in the interests of trade.

10. *Incidence of taxation.*—Excluding the hill municipalities, the incidence of taxation, per head of population, exceeds Rs. 2 in the following cases:—

	Rs.	A.	P.		Rs.	A.	P.
Delhi	2	2	11	Gujranwala ...	2	4	9
Ambala ...	2	0	2	Jhelum	2	15	2
Ludhiana ...	2	3	1	Rawalpindi ...	2	1	10
Ferozepore ...	2	9	3	Mianwali	2	13	4
Muktsar ...	2	0	1	Multan	2	3	9
Lahore ...	2	14	8	Shujabad	2	5	0
Kasur ...	2	1	9	Alipur	2	2	10
Amritsar ...	2	5	1	Dera Ghazi Khan ...	2	14	10
Sialkot ...	2	8	3				

The list is longer than last year, and the incidence in most towns has increased; but it must be remembered that the calculation is made on the population as ascertained at last census, and no allowance is made for the increase of population that is assuredly going on in most towns or for the fall in the purchasing value of the rupee, which renders 2 rupees a head a much lighter charge than it was ten or even five years ago. The exceptionally high incidence shown last year in the case of Rawalpindi has disappeared. The high figure shown for Sangla in last year's review was based on the census returns of 1901 which are totally inadequate in the case of colony towns.

In the hill stations the taxation is much heavier:—

	Rs.	A.	P.
Simla	12	8	3
Dalhousie	7	13	5
Murree	6	10	9

11. On the whole, there has been a continued improvement in the methods of collection of municipal taxes, but they can hardly yet be described as satisfactory. The system of refunds especially requires to be worked with greater smoothness and expedition, but until members of committees will take more personal interest in this part of the administration than they do at present, no great advance can be looked for. Municipalities have received very effective assistance in checking abuses from the Examiner of Local Fund Accounts and his auditors during the past year, and the Lieutenant-Governor desires to record his acknowledgment of their services. It is, however, necessary that the Commissioners should see that adequate action is taken upon the audit notes, in order to secure the redress of the errors which have occurred and the prevention of similar abuses in the future.

PART III.—ACCOUNTS.

12. *Accounts.*—The accounts of the municipalities have, as in the previous year, been compiled in the forms as revised by the Government of India in their Home Department resolution No. 14—26, dated 29th January 1907. Those of the notified areas have, as usual, been tabulated separately and are not dealt with in this part of the review.

Income and expenditure.—The total income and expenditure exclusive of debt head transactions amounted to Rs. 55,16,000 and Rs. 55,18,000 against Rs. 54,08,000 and Rs. 53,13,000, respectively, in the previous year. The variations under the main heads are explained in the following paragraphs.

Income.

13. The only head of income, other than taxation to which reference has been made in Part II, worthy of notice owing to its variation as compared with last year is "Grants and contributions for general and special purposes." The income under this head amounted to Rs. 2,30,000 against Rs. 4,36,000. The decrease of Rs. 2,06,000 is due to the absence this year of the grant of Rs. 1,00,000 to the Simla municipality made last year from the imperial contribution of 20 lakhs for the improvement and extension of Simla and of grants-in-aid to the Ludhiana municipality for water-supply and to certain other municipalities in the Lahore division for improvements in hospitals.

Expenditure.

14. *General administration and collection charges.*—The expenditure charged to this head amounted to Rs. 8,22,000 against Rs. 8,43,000. The decrease of Rs. 21,000 is due partly to the fees for local audit having been remitted by the Government of India with effect from the year under review.

Public safety.—The expenditure incurred on this account came to Rs. 6,87,000 against Rs. 7,34,000 in the preceding year, showing a decrease of Rs. 47,000, due mainly to the remission of Rs. 68,000 recoverable from the Lahore municipality on account of its police force, partly counterbalanced by increased expenditure in Sialkot on the payment of a deferred contribution for police, in Simla on the purchase of fire appliances, and in the Lyallpur municipality due to the purchase of a fire engine and the construction of a police out-post.

15. *Public health and convenience.*—The expenditure charged to this head aggregated Rs. 29,49,000 against Rs. 28,25,000 in the previous year, showing an increase of Rs. 1,24,000 spread over the following heads :—

		Rs.
(1)	"Water-supply"	52,000
(2)	"Conservancy and latrines"	94,000
(3)	"Hospitals and dispensaries"	20,000
(4)	"Plague charges"...	78,000
(5)	"Public Works"	28,000

It is chiefly due to—

(1) larger payments to the Public Works Department towards the water-works project in Ludhiana ;

(2) increased expenditure in large towns for the improvement of conservancy arrangements ;

(3) larger supply of medicines for dispensaries ;

(4) considerable expenditure on rat destruction and other measures which may perhaps have contributed to the comparative immunity from plague enjoyed by municipal areas throughout the year under review ;

(5) heavier expenditure on buildings and roads and the improvement of Public Works establishment.

There has been a counterbalancing decrease of Rs. 1,80,000 under the head of drainage due to a smaller expenditure on drainage projects mainly in the Rawalpindi and Multan municipalities.

16. *Public instruction.*—The expenditure under this head amounted to Rs. 5,88,000 against Rs. 4,43,000 in the preceding year, showing an increase of Rs. 1,45,000 which is spread over several towns and is due mainly to improvements in school equipment and furniture, the grant of grain compensation, and the construction of school buildings at Muktsar and Hazro. The total number of scholars on the rolls of secondary schools under municipal management on 31st March 1908 was 16,270 or 970 more than in the previous year.

17. *Contributions.*—The expenditure amounted to Rs. 74,000 against Rs. 20,000 in the preceding year, showing an increase of Rs. 54,000, which is accounted for by the share of octroi paid to the Rawalpindi cantonment having been incorrectly shown last year under "Refunds."

18. *Miscellaneous.*—The expenditure amounted to Rs. 3,96,000 against Rs. 4,47,000 in the previous year, showing a decrease of Rs. 51,000, which occurs mainly under "Other miscellaneous charges" due to the absence of certain unusual items included in the accounts of 1906-07.

19. *Extraordinary and Debt.*—The receipts and charges under this head amounted to Rs. 5,59,000 and Rs. 4,32,000 against Rs. 4,63,000 and Rs. 4,01,000 in the preceding year, showing an increase of Rs. 96,000 and Rs. 31,000, respectively. The balances of loans outstanding on 31st March 1908 aggregated Rs. 52,61,000 against Rs. 52,28,000 on 31st March 1907. In receipts the increase is due to the loans of 2 lakhs and 1 lakh raised by the Ludhiana and Delhi municipalities, whereas last year the only loans raised were 1 lakh by Delhi and Rs. 80,000 by Rawalpindi. The Lahore municipality is in urgent need of a loan of 14 lakhs, but local capital is hanging back. The financial condition of each indebted municipality was satisfactory, the closing balances on 31st March 1908 having been above the minimum prescribed by Government.

20. *Balances.*—The balance of all the municipalities at the close of the year amounted to Rs. 17,36,000 in cash and Rs. 1,90,000 in investments. The balances of a few municipalities fell below the prescribed minimum of 10 per cent. of the receipts for the year, owing partly to heavy refunds of octroi collection and partly to larger expenditure on plague.

PART IV.—GENERAL.

21. On the whole the health of municipal towns has been good. Plague, except in the first few months, was less virulent than usual, and though there was a certain amount of small-pox and cholera in some towns, it did not become epidemic. In Karnal the committee is beginning to realise the necessity of good ventilation as a prophylactic and the building bye-laws are being revised accordingly.

Since the close of the year a cholera visitation in Lahore and appalling mortality from fever in Lahore and Amritsar have revealed the utter inadequacy of the conservancy arrangements in both cities and the need of drastic changes. A popular demand for healthier arrangements has been awakened to an unprecedented degree, and active steps are being taken by Government and by the municipal authorities to such an end to what must be regarded as a grave scandal and a serious blot upon the administration. The remedy in the case of Amritsar will probably involve very costly drainage operations and must take time, but something is absolutely necessary in order to prevent the disastrous results following upon the heavy rainfall of 1908 which were only exceeded by those of the still heavier rainfall of 1881. Plans are being matured by the officers of the Irrigation Department who are vitally concerned in the question, and whose cordial co-operation with the sanitary and local authorities is essential to success. No efforts will be spared to prevent a similar calamity which the Lieutenant-Governor feels is at any rate in part remediable.

22. The Ludhiana water-works scheme made good progress during the year and has now been completed. A number of new wells for providing a more adequate supply of water in Lahore has been sunk. But unfortunately Lahore cannot be congratulated on its new conservancy tramway which, owing to the number of handlings of night-soil which it entails and its consequent offensiveness, has given rise to loud complaints. A mono-rail has been constructed by a native firm at Ambala to connect the Railway Station with the grain market and ginning factories. The Delhi electric tramway has been completed since the close of the year under report. Important drainage schemes have been framed for several municipalities, and the record of the year's public works shows satisfactory progress.

ORDER.—Ordered that copies of the foregoing remarks be forwarded to all Commissioners of divisions and Deputy Commissioners of districts in the Punjab, the Accountant-General, Punjab, and the Secretary to Government, Punjab, Public Works Department, Buildings and Roads Branch, and be submitted to the Government of India in the Home Department.

Also that the remarks and a translation of them be published in the *Punjab Gazette*, English and Urdu versions, respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of district and local boards.

By order of His Honour the Lieutenant-Governor,

W. S. HAMILTON,

Offg. Secretary to Government, Punjab.

Punjab Government Press, Lahore—17-12-08—3824—305—K. C. M.
